## CONSUMER FEES FOR HOUSING COUNSELING

Foreclosure prevention counseling and homeless counseling services are available free of charge through HUD's Housing Counseling Program. Housing Counseling agencies participating in HUD's Housing Counseling Program are not permitted to charge consumers for these specific housing counseling services. Counseling recipients should not pay for these services. However, housing counseling agencies are permitted to charge reasonable and customary fees for other forms of housing counseling and education services, including pre-purchase, reverse mortgage, rental, and non-delinquency post-purchase counseling services, provided certain conditions are met:

- Agencies must provide counseling without charge to persons who demonstrate they cannot afford the fees;
- Agencies must inform clients of the fee structure in advance of providing services;
- Fees must be commensurate with the level of services provided.

If you encounter housing counseling agencies that you believe are not complying with these requirements, you should contact HUD's Office of Housing Counseling.

## SOLID GROUND HOMELESS PREVENTION PROGRAM (HPP)

The Solid Ground HPP helps prevent new cases of homelessness for families by stabilizing housing and working with them to build a more financially secure future. Services include housing search and placement, and housing stabilization services such as case management, budgeting/money management, assistance with accessing public benefits, and financial assistance.

To receive HPP services, you must:

- Reside in the City of Los Angeles
- Be at or below 50% of the Area Median Income (AMI)
- Be at high risk of homelessness (delinquent on rent) or facing the risk of homelessness (i.e. enduring a financial hardship that could result in homelessness, but not yet at risk of becoming homeless)

**Does HPP provide financial support?**

Yes, but financial assistance is limited. Please inquire with one of our specialists for more information [CIFD.info@lacity.org](mailto:CIFD.info@lacity.org).

**Will this affect my public benefits?**

No, HPP will not affect you or your family from receiving or continued use of public benefits such as CalFresh, CalWORKS, SSI, SSDI, or other local, state, or federal supported programs.

NotifyLA is the City of Los Angeles' mass notification system used to provide information regarding necessary actions, such as evacuations, to Los Angeles residents, businesses and subscribers via recorded phone messages, text messages or e-mail in case of emergencies or critical situations. Because NotifyLA uses the 911 database, only land-line numbers are automatically included in the system. In order to receive a notification via your cell phone, Voice over IP (VoIP) number or email, you must register those telephone numbers and/or e-mail address in NotifyLA. NotifyLA uses geomapping so alerts are targeted by geographic location. That means, alerts will only be sent to the subscribers in the area impacted by the emergency.

#### ***How does NotifyLA work?***

It's a free, automated system used to send out alerts to the public about emergency and critical incidents. NotifyLA can reach the public via recorded telephone messages, text messages and emails.

#### ***Why are these messages important?***

This information will keep the public informed when a disaster occurs and will provide preemptive warnings in some cases.

# EMERGENCY ALERTS

## ***Who will receive the communication?***

Landline phone numbers are automatically included in the system from information contained in the 9-1-1 database. Residents can opt into receiving text messages, calls to cell phones and emails by signing up for NotifyLA. Registration is FREE.

## ***What kinds of messages will the public receive through NotifyLA?***

- Early warning notices
- Disaster notifications
- Evacuation notices
- Public health notices
- Public safety notices of imminent or perceived threats to life or property

## ***Is my personal information safe?***

Yes. The information you enter into NotifyLA is secure. The City of Los Angeles will not share or distribute any personal information and it will be solely used for providing emergency notifications only.

While every attempt will be made to contact residents and businesses in response to an emergency, there are factors that may impact the completion of those calls. These factors can include loss of electrical power, telephone company line capacity, busy conditions, caller ID blocking, etc.
